

MOOSE HUNTING IN BERGSLAGEN

- A HUNTING EXPERIENCE IN SOUTHERN DALARNA

Welcome to an exciting moose hunt in our well-stocked game forests located in the heart of eastern Bergslagen. As our hunting guest you are always at the centre, and our professional guides, together with service personnel and experienced hunting dogs, will do everything to ensure that you have a magnificent experience. You stay in traditional multi-bed cabins directly adjacent to the hunting ground. Happy hunting!

Nickbergets Jakt- & Fiskecamp began operations in 2003. Our business concept is to offer memorable hunting and fishing adventures in scenic Dalarna. We have at our disposal 5,000 contiguous ha in Bergslagen with excellent hunting conditions and a well-managed stock of moose and excellent grouse country. We offer everything from large-scale corporate hunts to guided one-to-one hunting.

Day 1: The guests arrive at Nickbergets Jakt- och Fiskecamp then check in to the cabins. We visit to the shooting range to ensure that the weapons are in order after the journey. The afternoon and evening are devoted to dinner together and information about the coming days' hunting.

Day 2: Moose hunting kicks off with a very early breakfast. The hunting is directly adjacent to the camp, and is designed to offer highly varied hunting where you as the guest can both hunt with a doghandler and try still hunting. There is a break during the day for wilderness lunch served out of doors around a campfire. The evening is for trying the wood heated sauna and then dinner.

Day 3-4: See Day 2. We hunt in 2 to 3 areas each day.

Day 5: We start the day with a delicious breakfast, after which we hunt until lunch, which is served at the camp. We sum up the days' hunting and prepare for our journey home.
