

# BEAVER HUNTING IN BERGSLAGEN

## -SPRING HUNT IN SOUTHERN DALARNA

Welcome to spring hunting for beaver. The camp is in the heart of eastern Bergslagen. As our hunting guest you are always at the centre, and our professional guides and rangers will do everything to ensure that you have a magnificent experience. You stay in traditional multi-bed cabins directly adjacent to the hunting ground.

**Happy hunting!**

*Nickbergets Jakt- & Fiskecamp began operations in 2003. Our business concept is to offer memorable hunting and fishing adventures in scenic river valleys.*

*We have at our disposal 5,000 contiguous ha in Bergslagen with excellent hunting conditions and a well-managed stock of moose and beaver, and good grouse hunting. We offer everything from large-scale corporate hunts to guided one-to-one hunting.*

**Day 1:** The hunting guests arrive at Hedemora train station, where we meet them for transfer to the hunting camp. Once there, time for check-in, and then a visit to the shooting range. We enjoy dinner together, where information about the hunt is given. The evening offers hunting from boat and land.

**Day 2:** The hunting day begins with dawn breakfast. We try to make contact with the early-morning beavers. Lunch is enjoyed outdoors around a campfire. Afternoon and evening is devoted to hunting from boat and land. There is a break to enjoy the wilderness dinner, we have brought with us.

**Day 3:** See day 2.

**Day 4:** After a welcome lie-in, it is time to sum up the hunting days. The hunting is rounded off with lunch together, which is followed by a transfer to Hedemora.
