

GROUSE HUNTING

-CAPERCAILLIE, BLACK GROUSE, WOODCOCK AND HAZEL GROUSE IN EASTERN BERGSSLAGEN

Welcome to an exciting grouse hunt in our well-stocked game forests located in the heart of eastern Bergslagen. As our hunting guest you are always at the centre, and our professional guides, together with service personnel and experienced hunting dogs, will do everything to ensure that you have a magnificent experience. You stay in traditional multi-bed cabins directly adjacent to the hunting ground. **Happy hunting!**

Nickbergets Jakt- & Fiskecamp began operations in 2003. Our business concept is to offer memorable hunting and fishing adventures in scenic river valleys.

We have at our disposal 5,000 contiguous ha in Bergslagen with excellent hunting conditions and a well-managed stock of moose and roe deer, and good grouse hunting. We offer everything from large-scale corporate hunts to guided one-to-one hunting.

Day 1: The guests arrive at Nickbergets Jakt- och Fiskecamp then check in to the cabins. We visit to the shooting range to warm up with a little clay pigeon shooting, and to ensure that the weapons are in order after the journey. The afternoon and evening are devoted to dinner together and information about the coming days hunting.

Day 2: After an early breakfast, the hunt can begin. The hunting takes place in the morning and afternoon/evening is directly adjacent to the camp, and is planned to offer you the guest varied hunting where you can hunt with a tree dog, with a pointer and by luring hazel grouse. There is a break during the day for lunch in the wilderness, served outdoors around a campfire. The evening is for trying the wood heated sauna, then dinner.

Day 3-4: See Day 2.

Day 5: We start the day with an early, delicious breakfast, after which we spend the first hours of the morning hunting. Lunch together rounds off your hunting with us at Nickbergets Jakt- och Fiskecamp. We sum up the hunting days, and prepare for our home journey.
