## HUNT BIG GAME WITH US!

Nickberget Hunting Camp is one of Sweden's leading hunt organisers. We arrange hunting trips in our own home district, where generations of hunters have been able to enjoy some fantastic natural experiences out in the wilds. Our hunting grounds lie in the heart of Österbergslagen (Eastern Dalecarlia), just 160 km from central Stockholm – and yet here you'll find forest wilderness, unspoilt countryside and a peaceful silence. We base ourselves on a "shooting party" that can help ensure you of a successful hunt. Hunting takes place across land leased from Sveaskog.

## ELK AND BEAR HUNTING

Nickberget Hunting Camp offers a hunting experience customised entirely to your own requirements. We dispose of over 5,000 hectares of Bergslagen countryside offering excellent hunting for a well managed stock of elk and bear. This enables us to organise everything from large-scale corporate hunts to hunts for small private groups.

The area in which we hunt is divided into domains, enabling us to organise a move to new hunting grounds in only a short time. We hunt 2-3 different areas each day, using field-proven Swedish and Norwegian elkhounds, in groups of at least five people. And at about midday, we treat ourselves to a hearty forest lunch. All hunters are picked up from and dropped off at their posts, and all transport within the area is included. We have our own network of highly skilled hunters and dog handlers who can assist in ensuring the hunt will be a success. If you have any further wishes, we'll do our best to satisfy them. We can offer excellent hunting-grounds and arrangements, but we can never control the outcome. If you keep quiet and stay in the hunt for several days, you'll have more opportunities to get in a shot. The elk hunt is strictly limited and specifies allocations and shooting directives that we carefully comply with in order to build up an even more robust stock of elk.

Make sure you plan and book your elk hunt in plenty of time. Much discounted end-of-season hunts may be available in December, so don't hesitate to get in touch with us!

Naturally, we expect you to have a national game licence, a valid gun licence for your firearm and appropriate liability insurance. There is a shooting range in the area where, if necessary, we can test-shoot your rifle and arrange for shooting practice.

## DEER, FOXES, BEAVERS, FOREST BIRDS AND HARES

Nickberget Hunting Camp offers a hunting experience customised entirely to your own requirements. We dispose of over 5,000 hectares of Bergslagen countryside offering excellent hunting for small game such as deer, foxes, beavers, badgers, hare and forest birds. We can offer everything from large-scale corporate hunts to hunts for small individual groups and day licence holders.

We have our own network of highly skilled hunters and dog handlers who can assist in ensuring the hunt will be a success, regardless of form – stalking, stationary, tree-top, terrier or battue. We have access to harriers, deerhounds and bird dogs, although you may bring along your own dog if you wish. If you have any special wishes we'll do our best to satisfy them – everything to ensure you'll get the very best out of your hunt.

We can offer excellent hunting-grounds and arrangements, but we can never control the outcome. If you keep quiet and stay in the hunt for several days, you'll have more opportunities to get in a shot.
