

**HUNTING AT IT'S BEST!  
HUNT ELK, DEER, FOREST BIRDS,  
HARES AND BEAVERS!  
RENT YOUR OWN LAKE!**

## WELCOME TO THE HUNT!

Nickberget Hunting Camp is one of Sweden's leading hunt organisers. We arrange hunting and fishing trips in our own home district, where generations of hunters and anglers have been able to enjoy some fantastic natural experiences out in the wilds. Our hunting and fishing grounds lie in the heart of Österbergslagen (Dalecarlia), just 160 km from central Stockholm – and yet here you'll find forest wilderness, unspoilt countryside and a peaceful silence. We base ourselves on a "shooting party" that can help ensure you of a successful hunt. Hunting takes place across land leased from Sveaskog.

## CUSTOMISED HUNT

Nickberget Hunting Camp offers a hunting experience customised entirely to your own requirements. We dispose of over 5,000 hectares of Bergslagen countryside offering excellent hunting for a well managed stock of elk, bear and a wide variety of small game. This enables us to organise everything from large-scale corporate hunts to hunts for small private groups.

We have our own network of highly skilled hunters and dog handlers who can assist in ensuring the hunt will be a success. The dogs include some of Sweden's best elkhounds, along with harriers, deerhounds and barking bird dogs. If you have any further wishes, we'll do our best to satisfy them.

## CUSTOMISED FISHING

Nickberget Hunting Camp offers individually customised fishing for groups, clubs and companies in Bosjön Lake, which is not far from Stjärnsund and Kloster and the lovely Husebyringen nature and culture trail. The lake itself is about 30 hectares in size. A cabin, a large outdoor barbecue area and rowing boats are available. Trout or rainbows can be released as you wish.

Björktjärn, which lies in the same area, is a smaller lake, about 6 hectares in size, containing a good stock of wild fish. Here, too, a cabin and barbecue facilities are available.

## FACTS AND FIGURES

The elk hunt is of excellent Bergslagen quality and is part of an elk management area, 220,000 hectares in size, from which we obtain our allocations and shooting directives.

We dispose of over 5,000 hectares of Bergslagen countryside offering excellent hunting for a well managed stock of elk and a wide variety of small game.

Nickberget Hunting Camp was founded in 2003 to provide hunting and fishing enthusiasts with good-value opportunities of practising their favourite sports in beautiful Dalecarlia. Here, everyone is welcome, from experienced anglers and hunters with their own dogs to landless hunters wanting to try their luck at call hunting/stationary hunting/stalking/battue/hunting with terriers, etc. Our dogs include Swedish foxhounds, wachtels and Finnish spitz.

## WHERE AND WHEN?

Nickberget Hunting Camp is situated just east of Hedemora up in the great forests of Garpenberg. As we organise our hunts by the sporting almanac, it's advisable to book in plenty of time, although, naturally, we may be able to comply with your wishes at short notice.

The elk hunt is of excellent Bergslagen quality and is part of an elk management area, 220,000 hectares in size, from which we obtain our allocations and shooting directives. We are careful to abide by these in order to build up an even more robust stock of elk.

## FOOD AND ACCOMMODATION

Nickberget Hunting Camp has its own hunting lodge – simple, but extremely fine nevertheless. In fact, it's something as unusual as an old lumberjacks' lodge dating back to the 1920s and beautifully situated by an excellent fishing lake right in the centre of our territory. However, we also have an ordinary hotel and a small luxury hotel right on the edge of the hunting grounds. A catering service is available for those preferring to take along their own packed lunches

## TRANSPORT

For guests not wanting to bring along a car, we can organise transport from both Arlanda Airport and Hedemora. Naturally, all transport is included during the actual hunt.

## OUR EXPECTATIONS

We at Nickberget Hunting Camp will do everything we can to make sure you get the very best out of your hunting and your stay out in the wilds. However, a successful hunt depends on mutual cooperation. We can offer excellent hunting-grounds and arrangements, but we can never control the outcome. If you keep quiet and stay in the hunt for several days, you'll have more opportunities to get in a shot. Naturally, we expect you to have a national game licence, a valid gun licence for your firearm and appropriate liability insurance. There is a shooting range in the area where, if necessary, we can test-shoot your rifle and arrange for shooting practice.
